

Sponsorship Opportunity

Quench Buggy

The Quench Buggy is a mobile water dispensing unit designed to meet personal hydration needs. Multiple on-board fountains and spigots provide easy access to clean, cool, fresh potable water in any physical environment; from concerts and civic activities, to relief from natural events in remote locations. This can provide freshly tapped potable water to the paddlers, and event visitors.

From local municipalities, to event organizers – the benefits of purchasing a Quench Buggy premium trailer are far-reaching – from promoting the advantages of tap water, to the reduction in bottled water use. Utilizing a Quench Buggy is a logical decision with savings both environmentally and monetarily. We look at this to help promote local municipal water sources and our community. At our event we attract 10,000 to 15,000 visitors from the local areas as well as the region.

International Dragon Boats for the Cure is passionate about the environment and the health benefits to drinking locally tested water. Our Dragon Boat festival is looking to become an Ecologo Certified Festival, promoting leaving a smaller environmental footprint when putting on a huge event. We feel this is a step to achieve that goal.

We will have affordable souvenir water bottles for the public to purchase and enjoy the local water as much as they would like at no cost.

The buggy has two 3"x10" advertising spaces included to promote your organization or company.

Your sponsorship: \$3800

This will include:

- Two sided 3"x10" advertisement on the buggy
- The buggy will be on the event site for three day event, including evening event
